

Die water van die Moreletaspruit vloei na die Roodeplaatdam. Die water wat ons in ons huise en besighede gebruik vloei ook, via die rioolnetwerk en afvalwaterbehandelingsaanlegte na die dam. Roodeplaatdam word vir ontspanning gebruik en is die bron van drinkwater vir die noordelike voorstede van ons stad. Ons aksies het 'n direkte invloed op die gehalte van die water in die dam.

U word vriendelik uitgenooi uit na 'n 'Aand van Gratis Lesings' aangebied deur die Neem Moreletaspruit Aan Forum en die Ekologie-bediening van die NG Gemeente Lynnwood,

op

Donderdag 11 April 2019 om 18:00 – 19:30

- **Kerneels Esterhuysen:** Hergebruik van behandelde afvalwater.
- **Arnold Aldous en Johan Alberts:** Langtermyn strategie met betrekking tot die rehabilitasie van die Roodeplaatdam Opvangsgebied.
- **Vrae en bespreking**
- **Tee, koffie en verversings**

Om te bespreek of vir meer inligting kontak:

Carol Martin by moreletaforum@gmail.com – Sel 082 772 2498

The water in the Moreletaspruit flows into the Roodeplaat Dam. The water we use in our houses and businesses also flows into the dam via the sewer network and waste water treatment plants. Roodeplaat dam is used for recreation and is the source of drinking water for the northern suburbs of our city. Our actions have a direct impact on the quality of the water in the dam.

You are cordially invited to an 'Evening of Free Talks' presented by the Adopt Moreletaspruit Forum and the Ecology Ministry of the Dutch Reformed Congregation, Lynnwood

on

Thursday 11 April 2019 from 18:00 to 19:30

in the Koinonia Room of the Lynnwood Dutch Reformed Church, 439 Sussex Ave, Lynnwood, Pretoria.

- **Kerneels Esterhuysen:** Re-use of treated wastewater effluent
- **Arnold Aldous and Johan Alberts:** A long-term strategy toward the rehabilitation of the Roodeplaat Dam Catchment.
- **Questions and discussion**
- **Tea, coffee and refreshments**

The speakers

Kerneels Esterhuysen

Acting Deputy Director: Technical Support and Compliance Management, Utility Services Department, City of Tshwane

Kerneels Esterhuysen obtained a BSc Hons in Environmental Microbiology at the University of the Free State and a BTech in Laboratory Management at the Tshwane University of Technology. He started his professional career at the Kimberley City Council, now known as the Sol Plaatje Municipality. He is currently employed by the City of Tshwane in the Water and Sanitation Division of the Utility Services Department. He is involved with Technical Support and Compliance Management for the Waste Water Treatment Works.

Talmar Impact Investments and Development is leading the project for the rehabilitation of the Roodeplaat Dam and its catchment.

Arnold Aldous

Senior Associate: Economics, Talmar Impact Investments and Development

Arnold Aldous is an Economist with a special interest in the field of Agriculture and Rural Development. He has extensive practical agricultural experience coupled with expertise in consulting on development projects as an Agricultural Economist. He has worked on a number of agricultural and rural development related projects, providing the necessary technical expertise including the design and implementation of due diligence assessments, business plans and strategies with an agricultural focus. He adheres to and applies the principles of sustainability across his areas of work. Arnold qualified at the University of KwaZulu-Natal with a BSc in Agricultural Economics in 2009, and went on to complete a BCom in Economics (Hons.) in 2012 at the same university.

Johan Alberts

Development Manager, Talmar Impact Investments and Development

Johan was the General Manager of a leading international fiduciary services organisation, taking charge of its Southern Africa operations. His role matured as the Chief Officer of Family Fiduciary Services, extending his ability to lead international operations and to navigate complex stakeholder environments including investors, clients, cultural and social dynamics, as well as board level executives. Johan adds value to the Talmar team through his strong leadership, passion for people, organisational management, structuring, problem solving and team building to achieve common strategic goals and objectives. He holds a BTh and leadership qualifications in various forms.
